

WELCOME! All pots are \$8.00 Unless individually priced with a wooden stick.

We accept CASH • CHECKS • CHARGE CARDS

We have locally dug perennials, shrubs, trees, herbs, & grasses.

Each pot has good strong roots that should grow well in your New England Garden.

We suggest on-line reading about your plant and make sure it goes in the correct location in your landscape. Keep your plants watered!!

You might like to know . . .

The plants today number around 200 varieties. We start our digging in April just as the plants come through the ground. We give them several weeks to grow in their pots, under good care by our club members. We are always amazed at how much they grow in just a few weeks. Ninety percent of our able membership participates in this event, in one way or another. The money raised is used to maintain 11 civic gardens around town, keeping our town looking beautiful! We also sponsor speakers for 8 months of the year to educate not only our members but also the public. There is a daytime meeting as well as an evening speaker sponsored at the Town Library. Our meetings are open to the public at no charge. You can join our Facebook page or check our website for information on our speakers each month. We offer scholarships to high school and college students studying horticulture. We also offer grants to those that meet our criteria.
